| | 4. First Aid Measures | | | | |
|--|--|--|--|--|--|
| Emergency and First Aid | | | | | |
| Procedures: | | | | | |
| In Case of Inhalation: | Remove from exposure and move to fresh air immediately. If not breathing, give arti respiration. If breathing is difficult, give oxygen. Get medical aid. | | | | |
| In Case of Skin Contact: | Get medical aid. Flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. | | | | |
| In Case of Eye Contact: | Flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical aid. | | | | |
| In Case of Ingestion: | Never give anything by mouth to an unconscious person. Get medical aid. Do NOT induce vomiting. If conscious and alert, rinse mouth and drink 2-4 cupfuls of milk or water. | | | | |
| Note to Physician: | None known. | | | | |
| 5. Fire Fighting Measures | | | | | |
| Flash Pt: | NP Method Used: Estimate | | | | |
| Explosive Limits: | LEL: UEL: | | | | |
| Autoignition Pt: | NP | | | | |
| Suitable Extinguishing Media | a:Use agent most appropriate to extinguish fire. Use water spray, dry chemical, carbon dioxide, or appropriate foam. | | | | |
| Fire Fighting Instructions: | As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. This material in sufficient quantity and reduced particle size is capable of creating a dust explosion. | | | | |
| Flammable Properties and Hazards: | | | | | |
| | 6. Accidental Release Measures | | | | |
| Steps To Be Taken In Case Material Is Released Or Spilled: | Use proper personal protective equipment as indicated in Section 8. Spills/Leaks: Vacuum or sweep up material and place into a suitable disposal container. Clean up spills immediately, observing precautions in the Protective Equipment section. Avoid generating dusty conditions. Provide ventilation. | | | | |
| 7. Handling and Storage | | | | | |
| Precautions To Be Taken in Handling: | Wash thoroughly after handling. Remove contaminated clothing and wash before reuse. Use with adequate ventilation. Minimize dust generation and accumulation. Avoid contact with eyes, skin, and clothing. Keep container tightly closed. Avoid ingestion and inhalation. | | | | |
| Precautions To Be Taken in Storing: | Store in a tightly closed container. Store in a cool, dry, well-ventilated area away from incompatible substances. Store protected from moisture. | | | | |
| 8 | . Exposure Controls/Personal Protection | | | | |
