

# TentClean™ Green

**Professional grade and environmentally friendly, concentrated vinyl cleaner**

Designed to remove a broad range of soil from all vinyl fabrics.

**Appearance and Odor:** A clear liquid with no added fragrance.

**Coverage:** Depending on the degree and type of soiling, method of application, concentration and environmental conditions, you may expect to clean approximately:

75 square feet per 32 oz. Ready to Use Spray; 150 square feet per 32 oz. Concentrate;  
600 square feet per Gallon

**Availability:** 32 oz. Ready to Use Spray, 32 oz. Concentrate, Gallon, 5-Gallon Pail, 55-Gallon Drum

**Applications:** **TentClean Green** may be used on all vinyl surfaces. Can be used for general maintenance and heavily soiled conditions.

**Dilution and Use Directions:**

1. Prepare solution of **TentClean Green** in an appropriate hand pump sprayer at the rate of equal parts of **TentClean Green** and water (with the exception of the 32 oz. Ready to Use Spray).
2. Rinse surface with water to remove loose soil.
3. Spray the mixture of **TentClean Green** on one section at a time, allow to set for a few moments. Do not let solution dry on fabric.
4. Agitate the surface with a soft bristle brush.
5. Rinse thoroughly. Repeat if necessary.

**Important:** For many (but not all) vinyl fabrics, we suggest the cleaning be followed up with an application of **APCO Vinyl Protector** to further enhance the appearance and help shield from environmental exposure, reduce soiling and inhibit mildew growth.

**Safety/Precautions:** **TentClean Green** is earth and user friendly, non-toxic, biodegradable, and contains no butyl. To certain sensitive individuals however, skin or eye irritation may exist with exposure. Care should be taken to keep this and all chemicals out of eyes and off skin. See SDS for other precautions and first aid. No GHS phrases apply. Protect from freezing. Rotate stock regularly. Keep out of reach of children. Best if used above 45°.
